## Customer Reviews

Ask yourself: are you a positive person or a negative person? Positivity expert and author Paul Brodie gets right into the heart of the matter from the get-go in his new bestseller *Positivity Attracts*. In this book Paul asks readers to question the real meaning of what it is to be a really positive person [as opposed to someone who walks around all day in a negative state]. The first thing I noticed about this book is the ease at which it is to read. The author has used a friendly tone to communicate with readers as if you were sitting right there sharing a cup of java together. This maintains interest throughout the book and keeps the pages flipping. In the first lesson on Positivity [Chapter 1: the message is clear "positivity attracts and negativity repels. Chapter 2 focuses in on the Four Truths that Paul has lived by and are what he teaches to others. These truths are simple in their nature but powerful in application. The author explains the 4 truths in a simple description of each [No spoilers here; read the book if you want to know what the truths are]. Chapter 3 on "Servant Leadership" is about giving back to others; this is a vital piece in the book because the world needs more of this so that we can live a more harmonious lifestyle. In chapter 4 we learn to look at our lives through a Negative vs. Positive perspective. Once again Paul uses real-world examples and illustrations based on his experience to teach people how to do this. Chapter 5 is a great piece of work because it focuses in on the baggage that we keep in our lives. Emotional baggage can be extremely harmful, creates stress and keeps negativity alive and well in the body.
