LOVE OF CHROMATIC HARMONICA...TECHNIQUES AND ADVICE FROM THE WORLD'S
BEST! is a 678 book all players should own, with 130 pages on method, 340 pages of interviews,
and harmonicas reviews and customizations.Max's book is smaller, but very well done, and a great
aid to building your skills playing and reading music.This is a translation from Italian to English, but
itâ™s so well done, youâ™d never know it was translated, which I cannot say about many such
books. It has a spiral binding, so stays open for easy reading, and the cover and back cover have a
laminated finish so yogurt and liquids wonâ™t damage either. I always seem to play at the kitchen
table, do you do this too?What youâ™ll find is an excellent progression of easy to grasp text,

technical exercises for the chromatic harmonica, and my favorite in the package by far is the wonderful and I mean wonderful recordings you can play along with/ all at many different skill levels from beginner to expert. Now like the Mel Bay play along books, the CD which accompanies this book provides two recordings of each piece offered: the first is the recording of the piece with Max playing the chromatic harmonica solo. You can read along in the book, and then play along. The second recording is the wonderful backup band, with no soloist, so you can play with them your own way.
