The Real Diana

Synopsis

Royal insider Lady Colin Campbell was the first to predict the Waleses' separation and divorce, in her international bestseller, *Diana in Private*. People magazine said of it: 'Some Palace watchers note that she has an impressive roster of well-placed contacts and credit her with writing the most believable Diana biography'; while Lynn Barber, in the Daily Telegraph, called it 'Jaw-droppingly sensational'. The Real Diana contains startling new revelations about Diana which Lady Colin Campbell has unearthed since Diana's tragic death, including new theories on her death itself. The Real Diana is based on 35 interviews with Princess Diana conducted by Lady Colin Campbell – and for the first time Lady Colin Campbell names her Royal sources. Newly updated in 2013 with an Afterword that reveals Lady Colin's insights into the inquest into Diana's death, the years that have followed, and the birth of Prince George. Customer Reviews

this book was definitely eye opening. the blinders came off and often I just thought I couldn't finish reading about someone I suddenly found myself not liking one bit after I spent 7 yrs a unmoveable Diana fan. the author did such a nice job of showing the real di, I am now a Charles admirer. I thoroughly enjoyed the writing style, and info.

For someone who claims to have intimate knowledge of poor Princess Diana, the author left out a lot, and most of the book is just re-hashed gossip. don't waste your time, nothing new. she's still dead, poor thing and people are still making money off of her. All alone in the dark in a lake for ever, just what she hated. but of course that was left out by the author, though she was spot-on about what a jerk Charles Spencer is.

It was a good read. Very interesting. An Insightful and honest look into her life. A kind but truthful book.
