Customer Reviews

Over the past few months, I've been trying like the dickens to broaden my reading horizons just a bit. My latest foray into the world of fiction was "Last Man Standing," the latest novel by David Baldacci. This is one of those books that I should have loved... but didn't . It falls into the genre of murder mystery/"techno"-thriller... much like Tom Clancy's books minus all of Clancy's geopolitical machinations and neo-conservative posturing. It's an interesting story told by an author with writing skills that can best be described as "nothing special." "Last Man Standing" is the story of name of Web London, a thirteen-year veteran of the FBI's Hostage Rescue Team, who sees all six of his teammates shot to pieces during an assault on a drug trafficking ring. Web is the only man to escape death. For some reason, when the signal to move forward is given, he finds that he cannot walk, run, or even stand up. It's almost like he's paralyzed. He desperately wants to join in the fight, but he's physically in no condition to do so. He lies on the pavement, fully conscious of the slaughter going on around him, and unable to help in any way. What follows is Web's attempts to find out why he was left the "last man standing." He's considered by many to be at best a coward and at worst a

traitor. He's left feeling guilty and despondent. He decides to seek psychiatric help. The story takes readers on a journey from FBI headquarters in Quantico, Virginia, through some of the seamiest parts of the nation's capital, and to the gorgeous horse farming country of northern Virginia. Readers are introduced to a plethora of characters, all part of a sinister plot against the FBI and Web London in particular. Read the book to find out what happens to our hero!
