Great stories. This can be the life achievement, but the author didn't do enough work to dig into details. As one of the first, it is still a good book to read, though it is sad that it didn't get itself into the greatest list.

This Chinese book is a bit worn, but still acceptable, however, it is the book that I need. Good deal.

Oh, my god. This book is so emotional and strong. Simple narration but such strong and powerful stories through interviews with people who lived through the wars. I was in tears each time I turned a page. It was that good.

received what I ordered on time! good quality!
