Customer Reviews

These coloring books were purchased for a bunch of us at work. We like to stress color and swear. A lot. So this was a great way to do both and have a good laugh. The quality of the paper was good. The designs were good. But if you are looking for something that is more high quality this won't be for you. If you are looking for something that gives you a good laugh and change up the basic coloring books this is for you.

Okay so let me start off by saying I have pretty bad anxiety and stress daily and was looking for something to help distract me so I decided to look into these adult coloring books everyone is always talking about. I came across this one because it looked really cool and fun. I was right! I love it so much. It's worth every penny and everyone is always asking me where I got it. I recommend this to anyone, you won't be disappointed!

I bought this as a gift for my best friend who's going through chemo. I also got her a sweet inspirational book. She's enjoying both, alternating between the two depending on the kind of day she's having. I'd recommend it to any stressed out coloring fan who enjoys venting with a little "colorful" language.

The saying are funny, but there picture don't take up the whole page. For the price it's still a fun book.

Love this book, such a stress relief.

I love this book, the picture are amazing in the book. The drawing are easy to color and the pages ain't cheap for gel pens to leak through.

Not many actual swear words but ok pictures. Should have known by how they passed out on the cover.

I gave this to a friend for her birthday with colored pencils and a sharpener. She loved it!
