Customer Reviews

Tons of great songs in here. Nice beginner format. Does not generally include solos, but this book will get you playing some of the most popular rocks songs for beginner guitar players. I am at an Intermediate skill level, just starting to learn modes and all 5 positions of the Major and Minor Pentatonic scales. I have been playing for just under 2 years. Most of these songs I can learn on my lunch break at work and play along with the original track on the same day. Most of my studies have been around technique and not learning songs, so this book has allowed me to get up to speed on well known songs, quickly. I wish I had found this book when I first started. You can get playing real songs, very quickly, as long as you can read tablature. I absolutely recommend this book to anyone who wants to learn a bunch of songs quickly or is not already "playing by ear".

Book is amazing, my daughter is gonna love it! Quick shipping, seller is A+!

If you use "standard note" sheet music, I don't think you will like this. The entire book is without "standard note" format.

I purchased this book for my 16-year-old son who is a beginning guitarist. He is enjoying it. Easy to read, with lots of fun songs. Great book!
