Customer Reviews

Cute book. One of my 4 year old's favorite current bedtime stories. Pretty good interesting story about problem solving. I would like an explanation for why elephants, horses, squirrels etc. are in the same proximity and for how a tiny bee was carrying all of the object in the story, but my daughter doesn't seem to mind ;)

Such a cute and clever tale to introduce us to many mischievous (or just hungry?) animals. My children and I are now having a hard time deciding which of this author's stories we love the best!!!

My daughter (5) loved reading this story. It kept her guessing at what was going to happen next. An adorable page turner for a young child.

My 4 year old grandson had me read this to him a second time before he would let me read a different story.

My nephew loved this book. We are going to read a few more. This author has captured my nephews attention.

Excellent read for my twin boys! They were so into it from beginning to end. Hope more books are to come!
