Synopsis

No more questioning how to write a song! Today only, get this bestseller for just \$2.99. Regularly priced at \$7.99. Read on your PC, Mac, smart phone, tablet or Kindle device. Singing is an amazing accomplishment that almost everyone in the world wants to achieve. However, only a few people are actually lucky enough to successfully write a song, let alone sing it. Many people think that coming up with lyrics to a song is the hardest job in the world as it requires a high level of creativity which only poets & master musicians can conjure. I am here to tell you that this is just a stereotype and a misconception. Just take a look at the mainstream musical hits, for starters! The book has purposefully been designed for those who want to learn how to write a song but don't know where to start from. It literally packs everything there is to know about writing a great song, from its structure to its thought process, nothing essential is left out. But the book also doesn't forget about your personal business and hectic schedule, especially if you're a person who's planning on doing this part-time. I've described a really simple way to write a song, all in an hour with the help of simple & refined techniques. Quite often, people tend to get bogged down in the useless details of writing a song, which not only slow the entire process down but also become a reason to lose interest in the whole process. Lucky for you, I've skipped all those boring essentials and have kept everything to the point, so you can easily & instantly apply the knowledge you learn from the book, into your practical life. After you've read the book, I'm sure you'll feel as if a whole new side of your mind has opened up and you'll find it much easier to convert natural elements in your life to lines to a song. You'll start feeling alive and after writing 2 - 3 songs will get that singer-like personality, everyone strives for. Most importantly, you'll be able to give your thoughts a new meaning and convert them into a song in less than an hour, and even brag about it! All in all, the book is a complete package and will undoubtedly help you accomplish the quest for writing a song, successfully. Download your copy today! Customer Reviews

Both of my boys are music lovers. Since they both play different instruments, I encourage them to create their own songs as well. I grabbed this book with the hopes that this could help me understand what my kids are doing when I think they are scribbling on paper. This book teaches all the steps from the creative process to the polishing of the song. As well as everything in between.

This book was well thought out and contains many tips on how to write songs. This book teaches the basics for a beginner like me and makes it look easier than I ever thought. This book is invaluable because it gives the views of very diverse writers. Amazingly, many of them approach songwriting in a similar manner. I recommend "Song" highly for aspiring or even accomplished songwriters. Recommend this book to everyone.

This book inevitably gives me some nuts and bolts way to look at my song differently and get over the hump to a more creative solution. The book covers pretty much every aspect of songwriting, from point-of-view and rhyming to prosody (the idea of all parts coming together to make a satisfying whole). It's a must read if you want to get to the next level.

Compared to writing a short story, I find song writing a little bit more difficult. However, after reading this book, I'm up to the challenge to compose a song. I might need to collaborate with a friend who can put in the tune and arrange the lyrics, if it needs to be done. Song writing is a form of creative

writing and it does involve a lot of creative process to make an impressive song.

A perfect book for me. I'm into writing songs and this book help me a lot. This book really helps me a lot as a beginner I don't have a background in writing songs but this book serves as my guide. I recommend this book.

This book immediately made huge sense to me. If you are after the art of creating songs, this is a must read book. From a point of view of someone who was/is actually inside the bubble you will surely learn something good. I started recommending this book to all of my friends within hours of reading it -- it is that good!

When someone with a house full of gold and platinum records sits down and says, "This is how I did it!" the rest of us are blessed to listen and learn. I do learn the structure of writing not only a hit song but also a song. If you wanna be among those famous songwriters you do need this book.

Finally an easy to read, well-organized & step-by-step approach for songwriting has been published! his book is a must for every teacher contemplating teaching composition in their studio and for any person who has a desire to compose.
