Customer Reviews

Bought this for a friend and had it mailed to him. He said it came quick and the book is of high quality. He is very happy with it and he's been doing ink for decades so it's hard to impress him any more. This book did.

It was OK to be honest I think the first one was better this one has a few funny signs in it and some looks like cartoon clips I don't know not really flash like the first one so I am a bit disappointed although it just my opinion

This was a waste of Money.... With a title like that it should be a book of all books, but it failed.... I recommend u go on a search engine to find art like this for free. After I got the first book they put out I bought this at the same time just to see if it was some what better but it was the same. I wouldn't buy this book but instead image search your designs and ideas.....I bought the first one as a inspirational tool but lost all of it when I viewed what was inside, Paid for the third one in hopes of getting it back and to give these books another chance but disappointment was all I saw..

If tattoos are graded on a scale from Honda Civic to Cadillac, these tats are your grandma's buick. Lack of detail, artistry, and some of them are just plain thuggish. I would have been much better off buying a tattoo magazine off the rack. This publication is garbage or for people that don't know what good tattooing is.

arrival was ok,and the book itself was ok number 2 was just as good.so go ahead and buy number 2.

The 3rd book is alright its a lot better than the first one. There's a few good drawings that you can work with and get some ideas from especially if you like working with color.

Bought this for my son who loves it he has 1 and 2 also and he said each one got better he loves to draw and do tats and this book was perfect for that talent thank you.

Customers really like it. This is the book I work the most with. Great to bounce off ideas for chest pieces. Definety a great addition to your artwork.
